Judges Critique:

Trudvang Lola

This bitch had her first run in an area of rushes on a back wind. She worked the ground with pace and pointed a snipe which lifted. On her second run in an area of white grass, a hen pheasant was shot on the side of her beat and was not picked. She was worked on and pointed a pheasant which was shot and retrieved to hand. She was run on for a third time in rushes. A pheasant was shot as she started her run which was retrieved. She was worked on and pointed. Two hen pheasants lifted and were shot. Both were retrieved to hand.

Enryb House Party at Clannliath

This dog was brought up for a retrieve on a running hen pheasant. He took the line with style and retrieved the bird to hand. The remainder of his run in white grass and rushes was blank. He was run for a second time in an area of white grass and pointed a pheasant which was shot and retrieved to hand. He was worked on in to an area of woodland and pointed a cock pheasant which was shot but flew on and landed across a gully. The bird was seen to run. The dog was sent and took the line but did not pick the bird. This dog was brought up for two further runs in white grass and rushes which were blank.

We would like to thank the GSPC for inviting us to judge and the hosts for allowing us to use the ground.
